A Century of Service

100th Anniversary Gala

Diane Grob Schmidt, President of the American Chemical Society is currently an Adjunct Professor at the University of Cincinnati. She retired from Procter & Gamble Company (P&G) in 2014.

The Virginia Section of the American Chemical Society received its charter on April 9, 1915 as the 49th local section. The Section will celebrate its 100th anniversary with a social, dinner, and program that will feature awards, recognition, historical facts, and Guest Speaker Dr. Diane Grob Schmidt, President of the American Chemical Society. Plan to join us as we honor the VA-ACS section's 100 years of achievements and public service.
