Chemical Education Committee Report (Submitted by Ryan Warren)

The Chemical Education Committee of the Virginia Section solicits proposals for grants to support school science projects in grades K through 12. These \$50 to \$500 mini-grants are provided to teachers in the Virginia Section for the purchase of equipment and materials. The grant application can be downloaded at <http://virginia.sites.acs.org/chemicaleducation.htm>. There have been seven proposals submitted by area teachers since the January 18, 2014 Executive Meeting. A copy of each grant application is attached to this report.

Summary of Grant Applications:

1. Rappahannock High School (Richmond County Public Schools)	\$500.00
2. MathScience Innovation Center	\$500.00
3. N. B. Clements Jr. High School (Prince George County Public Schools)	\$500.00
4. Boushall Middle School (Richmond City Public Schools)	\$500.00
5. Rappahannock High School (Richmond County Public Schools)	\$500.00
6. Richmond County Elementary School (Richmond County Public Schools)	\$500.00
7. Colonial Beach Elementary School (Colonial Beach Public Schools)	\$500.00
