

Chair Elect Report

The remaining meetings for the year include the following.

September Evonik – This meeting was rescheduled and the date is dependent on the speaker. The last word is that we need to wait on availability. A planning meeting is scheduled for the end of this month with Ryan Stilltoner.

October 14th Meeting – Joe Crockett Bridgewater. Speaker Kristin L. Wustholz.

November Meeting – UMW Janet Asper Contact. Date TBA.

The Mentor Mentee Matching Program

The program is being shifted to the YCC. Improvement in communication for assignments of tasks is needed. The new protocol to have students pick and contact their mentors is hindered by multiple issues with the ACS network site. A meeting will be scheduled to address student's frustration with the website.

Cross-sectional Meeting

The cross-sectional meeting with Hampton Roads has been assigned to the YCC Heather Lourenco. The location and contact information were provided to the YCC who has taken the reigns on this project. There is great interest from the Hampton Roads section. I have suggested that students be involved in the planning and have assigned a VSU student to the committee. I will contact other schools to find other volunteers to help with the planning and create buy-in.

P3 Funding Opportunities

I am looking forward to sometime this month to focus on funding but have no update currently.
